

INTERNATIONAL POLARTEC CHALLENGE

APPLICATION FOR SPONSORSHIP

Premise: Polartec Challenge is an international grant program that supports the spirit and practice of outdoor adventure. We assist frugal, low impact teams who respect the local culture and environment and serve as role models to outdoor enthusiasts worldwide.

Selection Philosophy: Over the past twenty years Polartec Challenge has sponsored the most compelling, passionate and original adventures. We support diverse, self-propelled expeditions and journeys to remote locations. Applications are evaluated on the basis of their vision, commitment and credibility. Prior winners have explored mountains, forests, caves, rivers, oceans and deserts around the globe by nearly every means imaginable.

Polartec Challenge is not the appropriate venue for projects that involve competition or fund raising. For information regarding funding for projects outside the scope of Polartec Challenge contact Ruthann Brown at the address below.

How did you find out about the Polartec Challenge?

Attach maps whenever possible and other supporting materials if necessary. Awards are financial and/or product. Winners are expected above all to have fun and come back alive. They are also expected to make available photographs and film footage to Malden Mills for publicity purposes and to speak to the press if called upon. Please be aware that expeditions are rarely funded in their entirety. We prefer team members to contribute financially toward their own journeys. Also, the grant program is extremely competitive and only a minority of applicants can be funded.

Polartec Challenge is funded by Polartec®, LLC as a concerned, active corporate citizen. Polartec is a registered trademark for fabrics available only from Polartec®, LLC.
